I am providing of my own free will a spay/neuter good faith deposit of \$150 to be refunded to me upon providing an authentic spay/neuter certificate to a representative of ILRR to show my commitment to the spay/neuter of companion animals to prevent pet overpopulation. I understand that I may also donate all or a portion of this deposit to allow continued rescue of Labrador Retrievers.

I am initialing below to acknowledge my agreement to this condition.

Please initial \_\_\_\_\_

I agree as a condition of this adoption to register the implanted microchip of this same animal within 2 weeks. (If the animal does not have a microchip at time of adoption I agree to microchip this animal at my expense and provide the chip # to ILRR) I am initialing here to acknowledge my agreement to this condition.

Please initial \_\_\_\_\_

This puppy has received it's first set of vaccines. I agree to take this puppy to a vet to receive it's 2nd set of vaccines on or before \_\_\_\_\_ and it's 3rd set of vaccinations on or before \_\_\_\_\_ to complete this puppy's immunity. I agree that these vaccinations are at my expense.

I further agree not to expose my puppy to unknown dogs until immunization is complete which involves all 3 sets of vaccines. It has been explained to me that to do so may expose this animal to myriad illnesses which could result in sickness or in death. I further agree that I am receiving a healthy puppy who has not been exposed to Parvo/Distemper and is not fully immunized. I agree that should my puppy be exposed to and acquire Parvo or Distemper after adoption, treatment will be at my expense. I am initialing here to acknowledge my agreement to this condition.

Please initial \_\_\_\_\_

I understand all of the above. I agree to surrender this animal to ILRR if all conditions of this contract are not met. My signature acknowledges my agreement and further acknowledges that a representative of ILRR has explained this to me.
